

Filtotech

Hygienic Filling Lines

“Bespoke Filling & Sealing Solutions for Dairy and Food Industries”

Who we are?

- 25+ years of expertise in filling & sealing
- Strong focus on dairy & liquid food products
- UK-based design & support
- Custom-built machines tailored to customer need

What we do?

Filltech designs and manufactures hygienic, high-performance filling and sealing machines for dairy, ready meals, desserts, and beverage applications, supporting both liquid and semi-liquid products.

Filling Machine Solutions:

- Cup & Pot Filling Machines
- Bottle Filling Machines
- Bucket & Jar Filling Machines
- Thermoforming Machines

- ✓ Ultra Clean CIP
- ✓ High Filling Accuracy
- ✓ Servo Filling Technology
- ✓ Fast Product Changeover
- ✓ Touchscreen Recipe Control

What we do?

End-of-line Solutions:

- Robotic Palletisers
 - Automates palletising for enhanced efficiency and safety
- Tray Packers
 - Ensures smooth product handling and packaging

From rotary and linear filling machines to integrated end-of-line automation, Filtech delivers complete, turnkey production solutions.

Industry Areas

- **Dairy** – milk, yogurt, cream, dairy-based products
- **Desserts** – chilled and ambient desserts, cream-based products
- **Plant-Based** – dairy alternatives and plant-based liquids
- **Beverages** – milk drinks, juices, and liquid beverages
- **Snacks & Granules** – products with inclusions and particulates
- **Honey & Jam** – viscous and sticky products requiring precision filling
- **Ready Meals** – soups and prepared food components
- **Sauces** – humus, dips, and low to high-viscosity sauces

“From simple liquids to complex products with particulates”

How we work?

“A structured, transparent approach focused on reliability, performance, and long-term value.”
